**Subject:** Ring Doorbell Announcement

We begin our webinar training with Ring tomorrow and they need approval to send out the attached announcement to the Ring users in our area. I don't see any issues with it but I wanted you to be on-board with it. They have also sent over a press pack which has logos and talking points for future announcements. I have shared these with Dan Bell and Tom Lorenz. My plan is to coordinate with them so the messaging comes from the City and the PD. I figure that will reach a larger crowd. I will review all announcements with you before we send anything else out. Let me know if you have any concerns.
